CREATE A HEALING GARDEN RETREAT

At times in life we feel the need to retreat in order to find the way forward again. A garden can give hope, upliftment and a sense of connection to what's deep inside if it is created with care for our emotional needs.

In this course, you will be inspired to look inwards at feelings, think differently about your garden, be guided to find the connection that is meaningful to you with its healing potential, then plan the design to make it your place of sanctuary. It will leave you infused with passion and a greater understanding of you. 6 x 3hr sessions. Cost \$100

wk 1: Healing gardens & personal connection
wk 2: Finding your dreaming place, freedom
wk 3: Personal elements of healing, the vision
wk 4: Plotting the site, assessing the space
wk 5 & 6: Designing the retreat, plant choice, planning the making.

Something's come up - just can't get to you right now...
